

A photograph of a server room with rows of black server racks. A person is visible in the background, looking at a rack. The image has a blue tint.

Zero-Risk Enterprise Cloud Storage

The power of enterprise data storage.
The convenience of the cloud.

Trusted by Leading Companies Worldwide

Founded in 2011, Zadara is trusted by companies in a variety of industries: automotive, media, technology, law, education, and more.

“More than 90% of data centers cannot keep up with storage needs.”

IDC

Flexible Storage for an Uncertain Future

- Enterprise-grade performance
- Different storage for different use cases
- No big capital expenditures
- Flexibility to grow or shrink on demand
- Ability to migrate data easily
- No vendor or cloud lock-in

Introducing Enterprise Storage-as-a-Service

Any Data Type

- Block
- File
- Object

Any Protocol

- FC, iSCSI, iSER
- NFS, CIFS
- S3, Swift

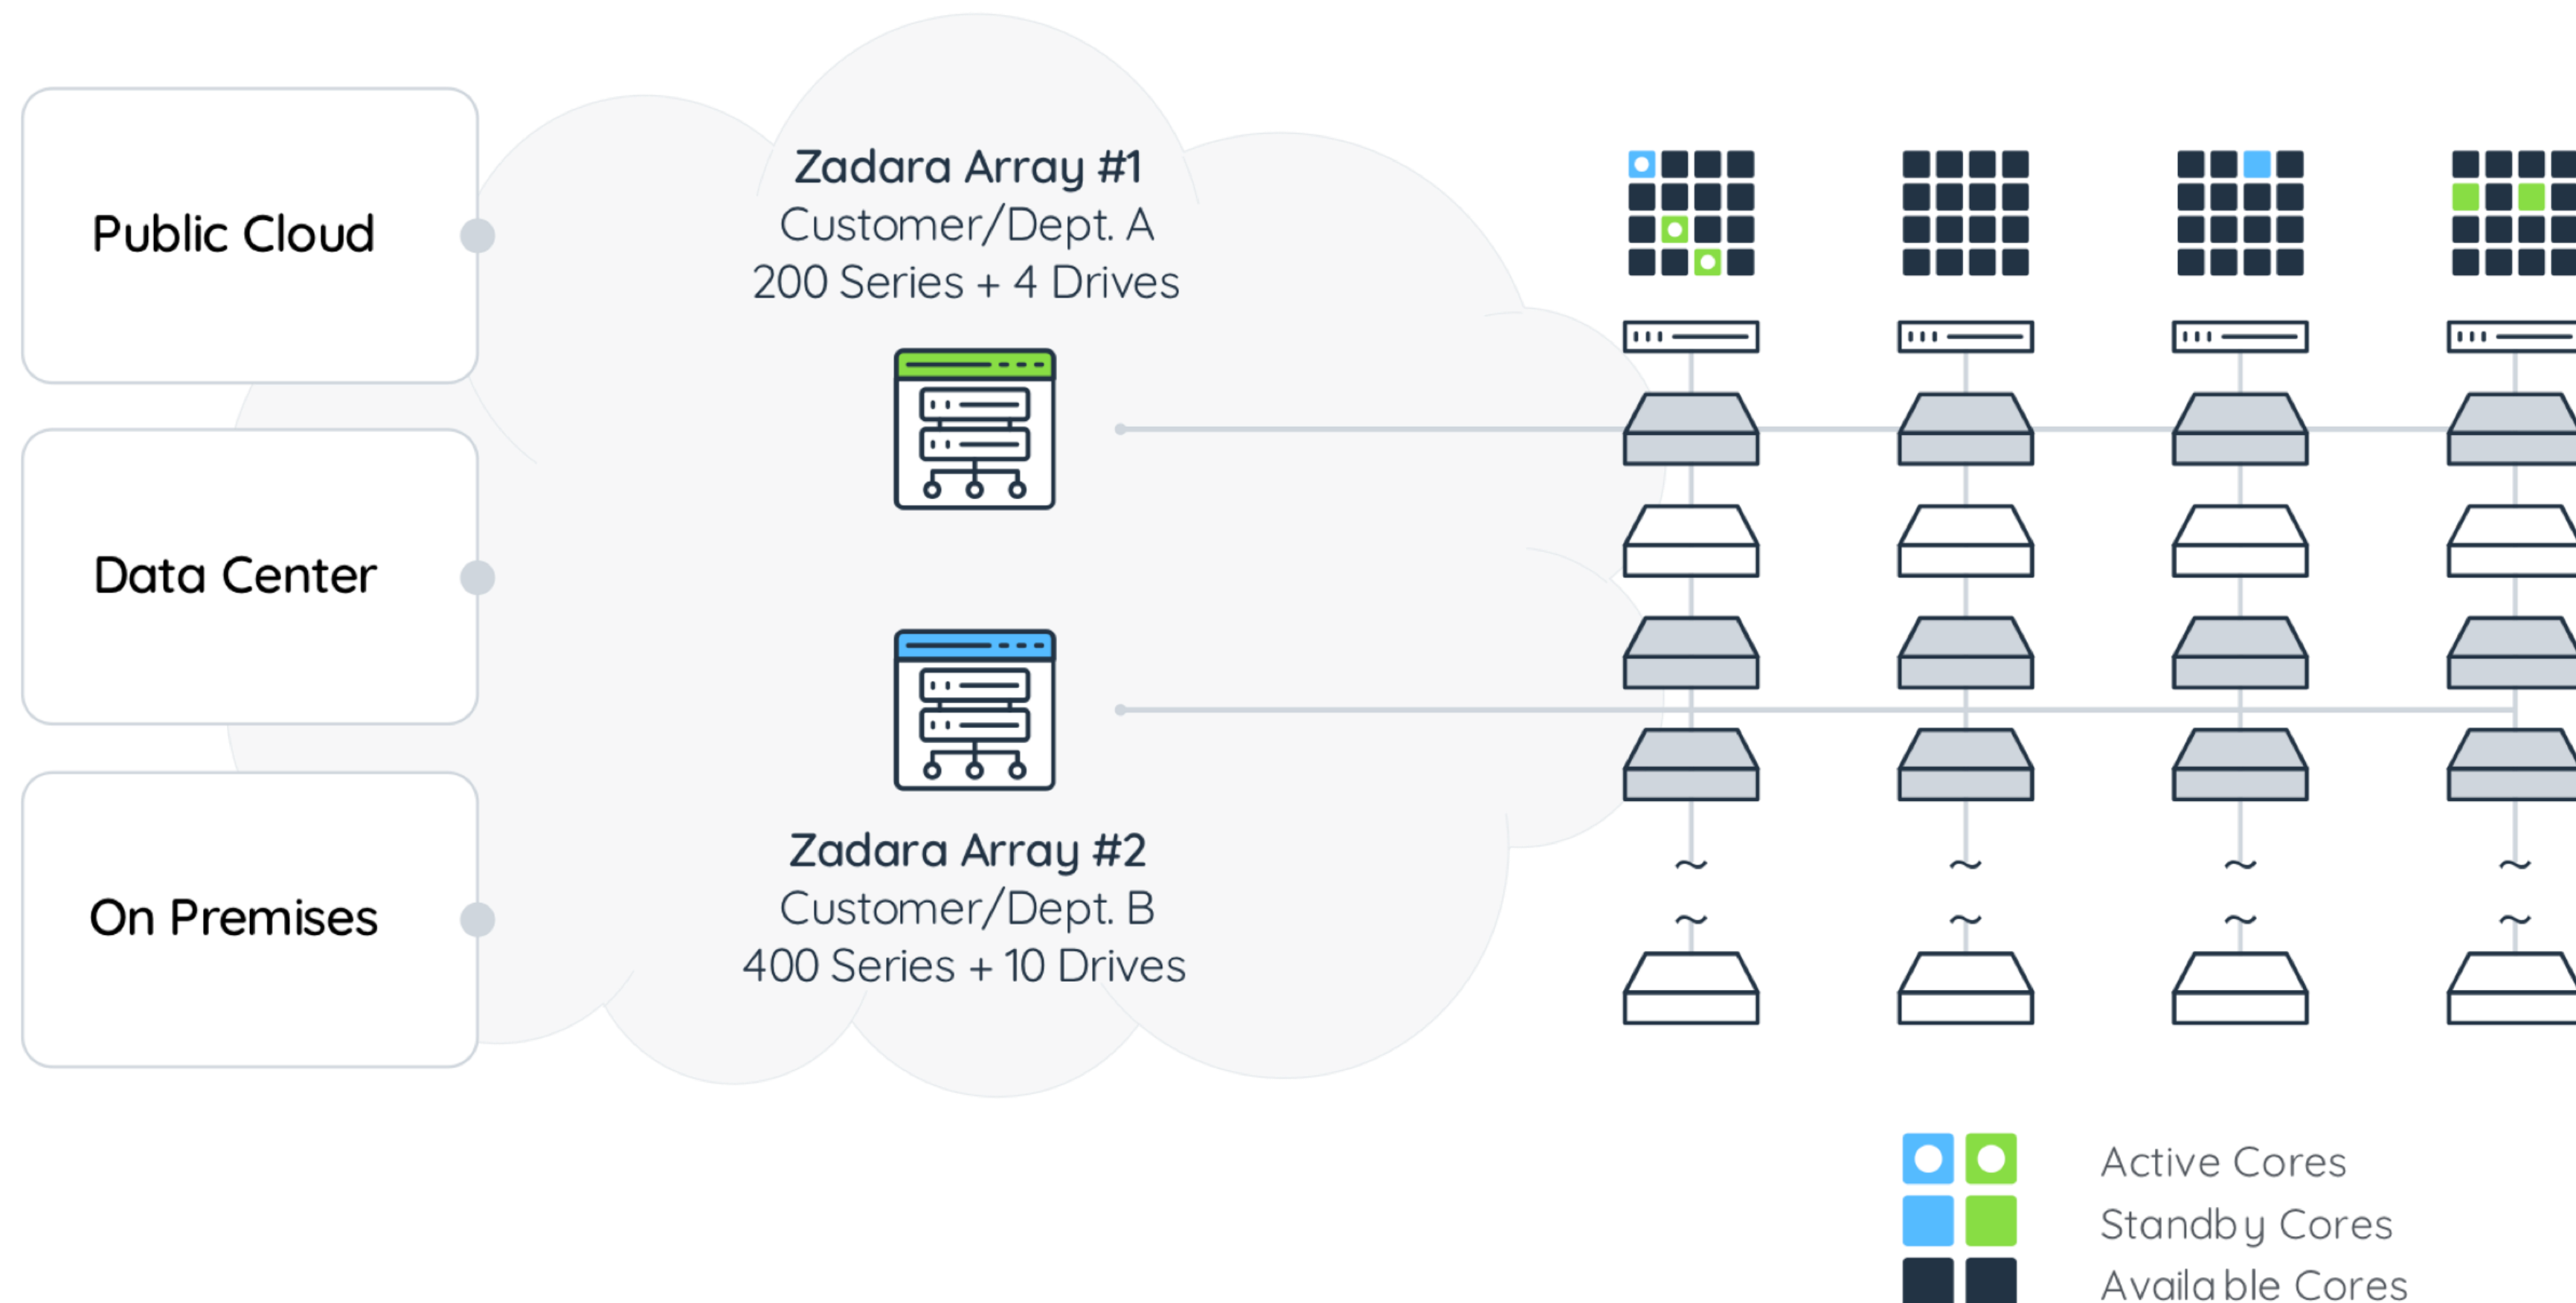

Any Location

- On-Premises
- Public or Private Cloud
- Hybrid

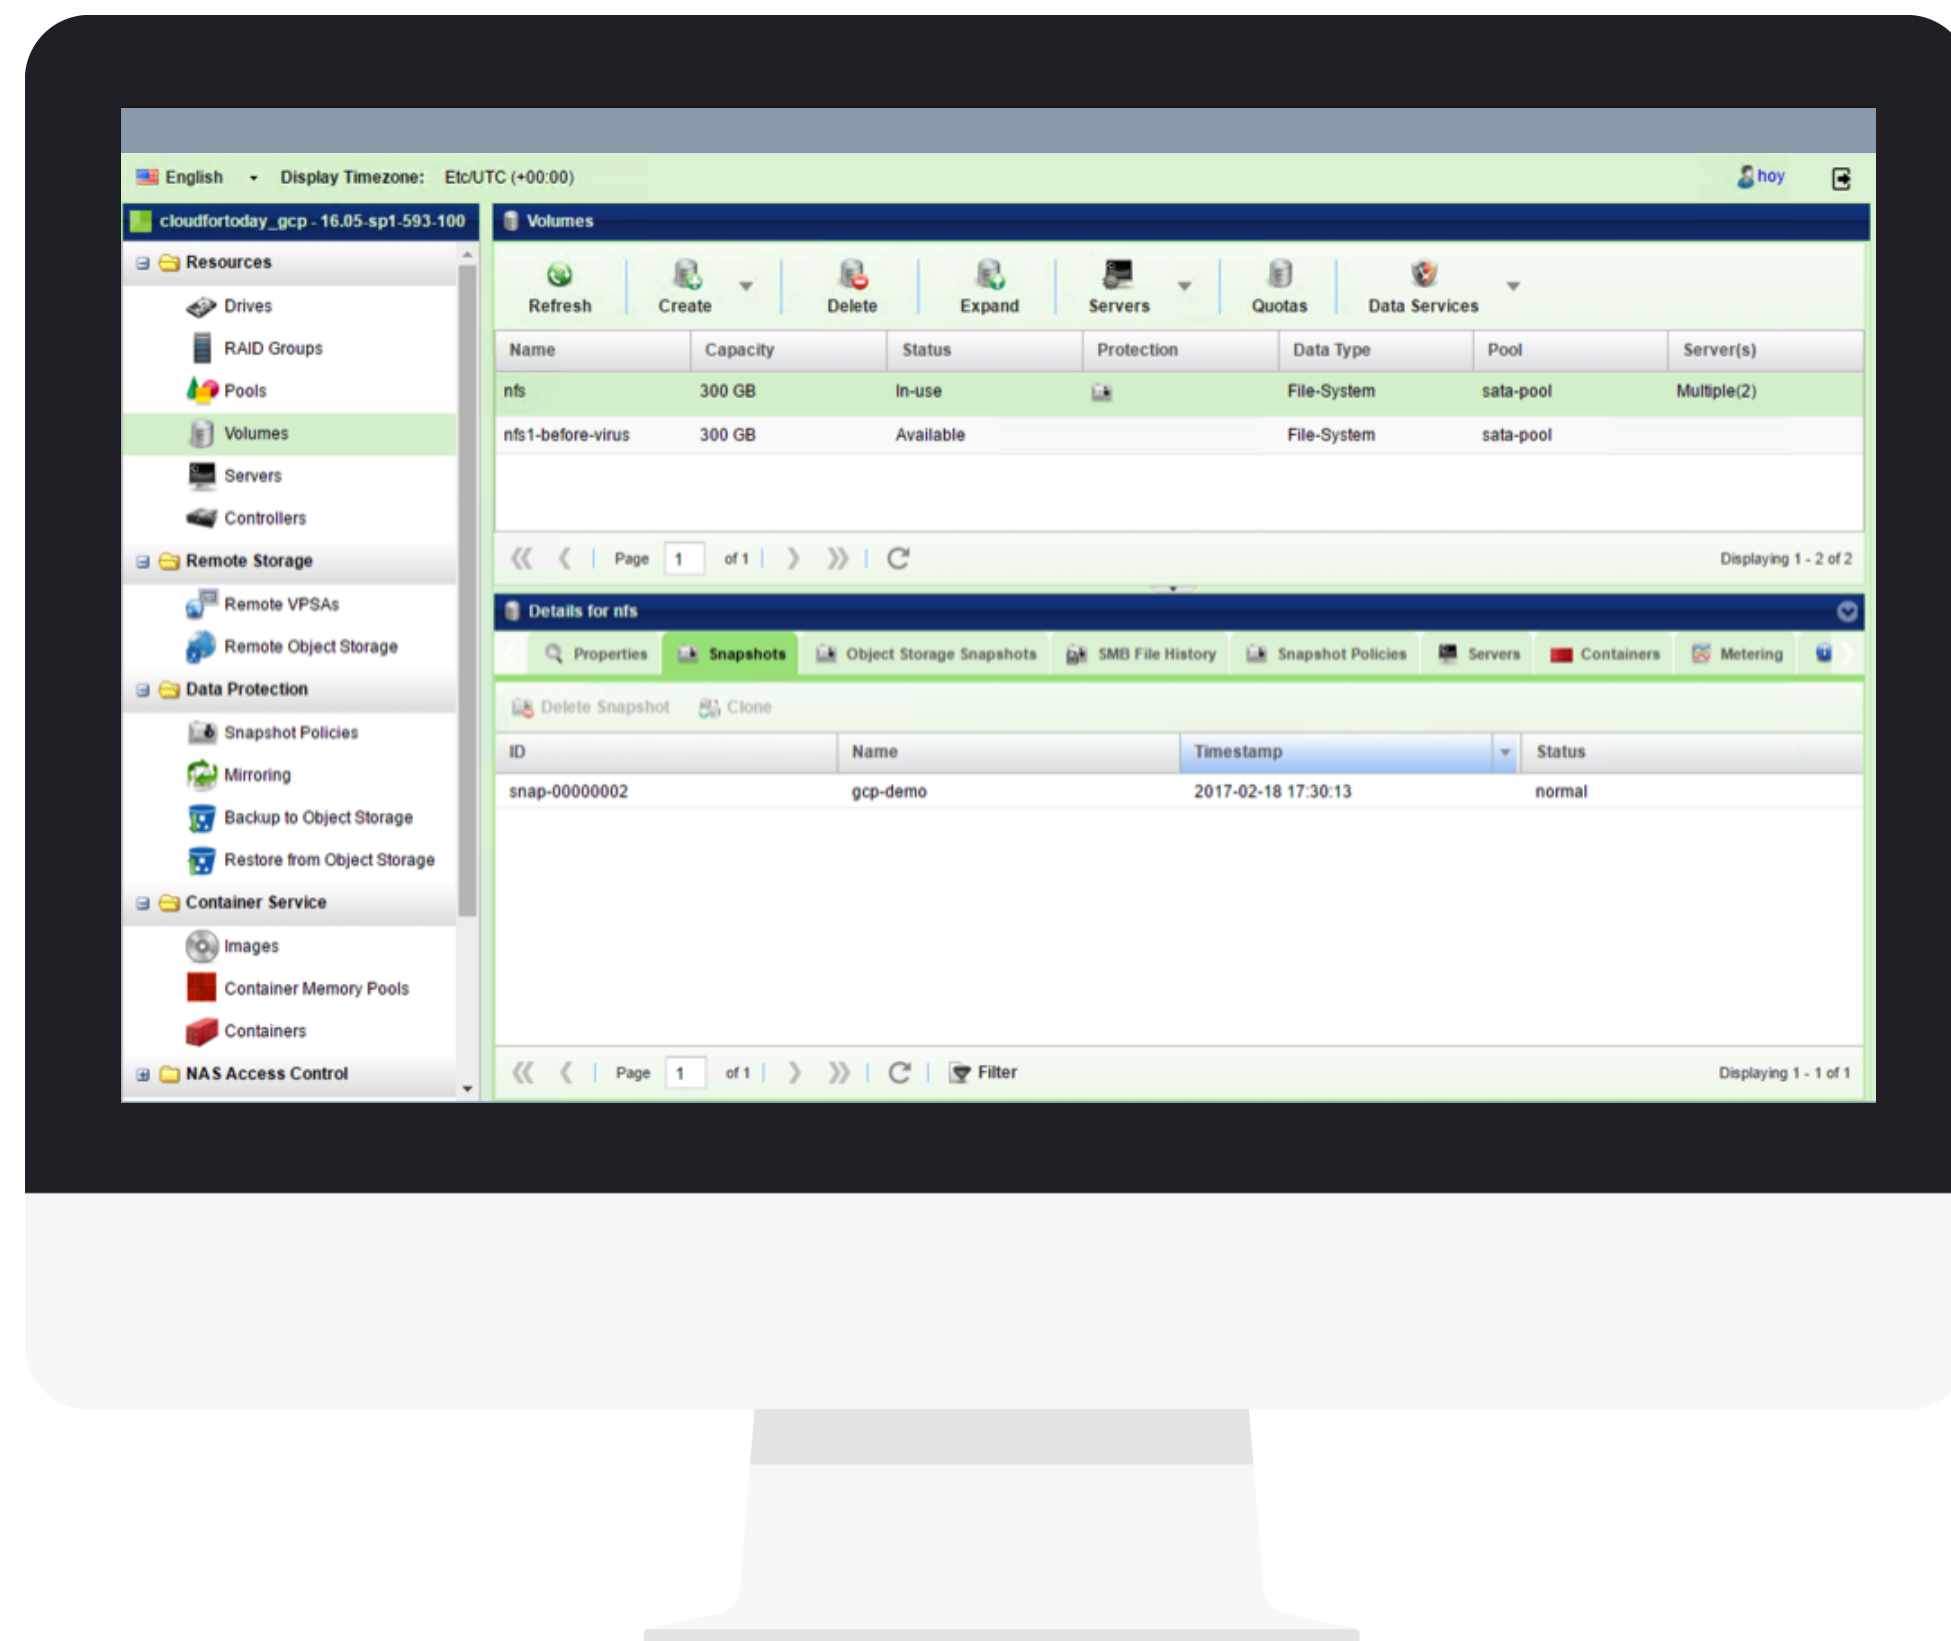

Multi-tenant efficiency. Single-tenant experience.

Dedicated CPU, cores, memory, drives, SSD cache. Seamless, rapid VC failover.
Elastic in all directions. Encryption in-flight and at-rest (AES-256).

Visibility. Knowledge. Control.

Zadara gives you total control over your entire enterprise storage system, through a convenient web-based management interface.

- Software-defined storage
- Analytics, performance metrics
- Elastic provisioning
- Chargeback actual usage
- Add or reduce storage capacity

Powerful capabilities. Capably managed.

Large SSD
cache options

Block, file and
object storage

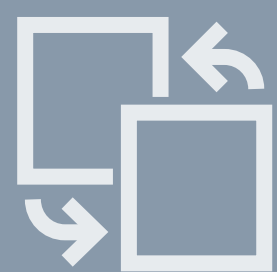

Thin provisioned
volumes

Large volume
sizes

NFS, CIFS (AD),
FC, iSCSI, iSER

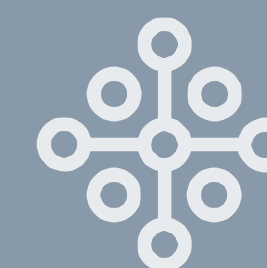

Multi-zone
high-availability

Non-disruptive
upgrades

100% RESTful
API coverage

Cluster
support

At-rest, in-flight
data encryption

A photograph of a Harvard University building, featuring a prominent clock tower with a green dome and a white face. The building is red brick with many windows, and there are trees and a lawn in the foreground.

Harvard University

“With Zadara we’ve been able to more accurately match our data storage resources and costs to our needs, while providing a superior experience for all our users.”

Harvard University

CHALLENGE:

- Scalable storage for projects
- Protect student privacy
- OpEx pricing model

RESULTS:

- Elasticity and a common capacity pool for time-bound projects
- Better data protection and security for students’ personally identifying info
- Department-wise billing and accounting
- Hibernation every night

Gilt

CHALLENGE:

- Increasing number of images created scalability and management challenges
- Storage infrastructure cumbersome and expensive to run and maintain
- IT not responsive to business needs

RESULTS:

- Reduced storage costs by 85%
- Accelerated new capacity deployment from days to minutes
- Able to redeploy people from storage management to high-value activities

“With Zadara we moved from a storage system that hindered our growth to one that enables our growth. And we’ve reduced our storage costs by 85%.”

Anders Holm, Gilt

Viatel

A photograph of a modern, multi-story office building with a glass facade. In the foreground, there is a large, white, rectangular sign with the Viatel logo (a stylized 'V' in a circle) and the word 'Viatel' in a bold, sans-serif font. The sign is partially obscured by green foliage. A semi-transparent dark blue box is overlaid on the image, containing a quote and a name.

“Using Zadara were able to quickly deploy a world-class product offering to address real customer demand, without large startup capital expenses.”

Damian McCann, Viatel

CHALLENGE:

- Identify ways to participate in new high-growth markets
- Find solutions to support existing customer base
- Grow overall revenues and margins

RESULTS:

- Quickly-deployable; eliminated need to build new technology
- Zadara OpEx-based solution scales with business rather than requiring large CapEx investment

Zadara On Premises: Best of Both Worlds

- Fully managed storage service — not a lease
- Enterprise functionality, control, privacy
- Expand as needed; pay only for consumption
- Remote monitoring, updates, just like cloud
- Hardware replacement
- 24/7 phone support
- Periodic price drops for existing capacity

“50% of enterprises
have hybrid clouds.”

IBM and Gartner

Available Through Major Cloud Providers

Zadara is available directly through major public and private cloud providers, and provides up to 10x better performance than using native storage or other software stacks.

Awards, Accolades, and Achievements

Zadara has been recognized as an innovator and high-quality solution provider by numerous industry analysts and publications.
